## Don State Technical University

Dear colleagues,

I'd like to welcome you to the Don State Technical University, one of the country's biggest and fast developing academic institutions.

We implement the lifelong learning strategy that enables students of various ages and professional backgrounds to find educational programme that will cover their needs. We are a research-intensive university and one of the country's leading academic institutions in many fields of study. Our successes are acknowledged both on the Russian and international levels.

Many levels of study are covered at the Don State Technical University including undergraduate and postgraduate degrees. Our courses help the students to develop critical thinking and independent learning skills that are essential for future leaders and decision makers. Our lecturers are leaders in their fields and offer you the chance to learn about world-changing research as it happens. We are a forward-thinking institution offering innovative programmes that enable our graduates to succeed in the rapidly changing global economy; we successfully create opportunities for international exchange with foreign institutions for both students and academic staff.

As well as offering a world-class education the university has a range of other services and facilities such as well-equipped scientific and technical laboratories, a swimming pool and athletic arena, the gyms, conference facilities, library services, career advice services and even the facilities for filming.

At the moment there are over 46 000 students doing their Bachelor's, Master's, PhD and MBA educational programmes at our university. Every year more than 1000 students from 58 countries of the world come to DSTU to get their start to a successful future as professionals.

## Useful information

Rostov-on-Don is a great place to study, live and work. It is one of the most lively and dynamic cities in the south of Russia. From bustling shops and a lovely river area to outstanding natural beauty, the city and region have lots to offer.

Located in the Southern Federal District of the Russian Federation on the banks of the river Don Rostov is a friendly and diverse city with people of over 170 nationalities living there.

Rostov-on-Don is well-connected with its international airport and a mainline train station. It is the major southern port and an important transport hub.

The city's favourable geographical position at trading crossroads promotes fast economic development. It has been ranked among the top10 most investment-attractive Russian cities.

Outside Rostov-on-Don you will find areas of natural beauty and stunning national culture heritage.

The region enjoys Russia's mildest climate.
